

Law Of Expansion

Oetinger: *The end of the ways of God is corporeality.*

God happens as all this through Law of Expansion. So:

To improve politics, become proficient at war.

To become proficient at war, practice moral behavior.

To practice moral behavior, culture your abilities,
refine your sensibilities.

To refine your sensibilities, build out a society, make a world.

To make a world, raise a family.

To raise a family, be religious, rebind your unity.

To rebind your unity, use elegant language.

To use elegant language, maintain faith in God,
and work your body, mind, and hands to the bone.

All this comes from God and returns to God without interruption or delay.

The universe, which is life, rises from its base, God, and returns to its base, God.

Expansion, the world, comes from equanimity and returns to equanimity.

All this is Godly corporeality. Clergy and teachers must factor into their plans and practices the careers of Shirdi Sai Baba, Sathya Sai Baba, and Prema Sai Baba. This activity is the prius of the era. Progress in the affairs of nations depends on clergy and teachers fulfilling this duty of theirs. There can be no quarreling among adherents of the religions.
