**The Prime Minister Of The Republic Of India,  
The President Of The United States Of America,  
And The President Of The Russian Federation**

### **Announce**

- \* The alliance of we [Three Brother Nations](#), the sovereign freedom of our countries, the happiness of our countrymen, and the success of humanity in this world and beyond, are thrown into existence in consequence of faith in God.

Each one of us, persons and nations, subsists in the one true God. Had one no faith in God, there were no one here or there there. He bears all names and fills all forms. This is our faith and certainty. We and all humanity united start here and end here, immersed in God, saturated by faith in God.

- \* We three are brother nations on account of our success as multi-religious and multi-racial nations. We have authority, therefore, to convoke and regulate this globular convocation of nations who are God's corporeality.

The safety and sovereignty requirements of we three brother nations outline the safety and sovereignty requirements of all nations. This is the condition of our mutual, globular convocation of nations now and as far forward as a man can see.

- \* Among ourselves, we take decisions by one of us for their sovereign freedom to be decisions by each of us for our own sovereign freedom. The authority of each of us with respect to our own domestic and foreign communications (affairs), as well as the authority of one or all of us with respect to inter-nation communications (affairs), is plenary.

Among other nations, the sovereign national freedom of each nation is our wish and regulatory standard. Whatever conforms with that standard and infringes no other nation's conformation with it pleases us and avoids our scrutiny. Again, each of us speaks for all of us.

- \* Sovereign national freedom is established and maintained by the practice of fair and reciprocal communication. It is of the spirit if it is to prosper the flesh. Fair and reciprocal communications in foreign and domestic matters is, for us, a synonym for sovereign national freedom. Be honest and unequivocal in your foreign and domestic dealings and you will not invite our attention.

Among other nations, we are reactive only, not pro-active. Each nation's business is their business, not ours. We have no programs, intend no initiatives for this or that intra-nation project or agenda. We watch and observe. We stir for action only in the case that communication between nations becomes unfair and not reciprocal, or, communication within a nation degrades fair and reciprocal communication between that nation and another.

\* Keep your hearts and houses clean and we Three Brothers will not see to pass you under our scrutiny. We only perform a service, after all, but we do perform it: we take out the garbage, we drive off what does not belong on a work of art that is a nation state. We do not make, remake, transform, punish, commend, or try to improve a nation state. Only God has authority to do that, and knowledge of the what, where, when, why, and who.

Keep your hearts and houses clean and your communications fair and reciprocal.

*Denn wir haben hie keine bleibende Stadt,  
sondern die zukünftige suchen wir.*

For here have we no continuing city,  
but we seek one to come.

Hebrews 13:14

\* Lest there be doubt, be it known that, after faith in God, two things matter to us: border integrity and communication facility. Do not test our borders and we will not erase yours. Do not impede our communications and we will not destroy yours.

Test our borders, impede our communications, or try to subjugate one or all of us, and we will remove from office or existence – our choice – whomever amongst you instigates or executes on those activities.

Our borders identify one of our Seven Mothers, namely, our Mother Country. Cross them without our permission and you have defiled a Mother of ours. Our communications are the means by which our Mother Countries maintain their health and prosperity. Frustrate or attack them and you attack our Mothers' lives. Subjugation is in us neither to do nor to abide.

- \* In return for which, we undertake, with the nations jointly, to protect the communications of our globular convocation of nations against obstruction, restriction, attack, misuse, removal, or limitation.

By nursing ambition to subjugate the nations, and by executing on that ambition, the People's Republic of China (PRC) place themselves under our scrutiny. We (Three Brothers, plus perhaps Japan and Egypt, or others) find PRC insolent towards our authority and obdurate with respect to maintaining that posture. We find also that they are not a nation as such but rather a subjugator of the Chinese nation. Our fixes for the globular mayhem inflicted by the PRC address, therefore, the Chinese Communist Party (CCP), who comprise the PRC, and not the Chinese nation, who comprise a legitimate nation state.

Our intention is to extirpate CCP. Our means are classical: sever their communications. Our authority is our singular success as multi-religious and multi-racial nations made corporeal by our faith in God.

- ❖ Supplementing a reordered American COCOM system, we will conduct all-domain, all-of-government preemptive and responsive attacks against CCP until they are gone. Casus belli exists: globular bioweapon attack, targeted seizure of private and public properties, mercantilist and monopolist trading policies and operations, etc.

- ❖ We will ourselves, and will help other nations, seize or sink PRC / CCP fishing vessels, and their armed escorts, found uninvited in national territorial waters not their own.
- ❖ We will enforce existing inter-nation nullifications of PRC / CCP ownership claims over islands in other nation's territorial waters, or in inter-nation waters, and cause PRC / CCP to abandon such of their civilian / military installations as exist on those islands.
- ❖ We will throw PRC / CCP assets out of Afghanistan and prevent opium and hashish from leaving that area.
- ❖ We will cease funding United Nations (UN), International Monetary Fund (IMF), and World Bank (WB) altogether and order their assets removed from within our borders.
- ❖ We will close the offices and terminate the activities of the United States Agency For International Development (USAID) and the Central Intelligence Agency (CIA) and their counterparts in India and Russia.
- ❖ We will cease participation in the World Trade Organization (WTO), the BRICS Summit, and the Organization For Economic Cooperation And Development (OECD), relying instead on bi-lateral trade agreements nation-by-nation.
- ❖ We will establish a commodity-backed monetary system for the globular convocation of nations, all nations excepting the notional one called PRC / CCP welcome to participate. The currency will be backed by the array of our combined precious metals, stones, woods, and fuels.
- ❖ We will stop PRC / CCP loansharking to foreign nations, states, and municipalities by declaring all such debt null and void but also

available for transfer to / seizure by IMF / WB should they want it.

- ❖ We will expel PRC / CCP companies and personalities from ownership, administration of, and participation in our domestic assets industrial, educational, religious, financial, and infotainment.
- ❖ Companies based in our nations will not sell or be a party to selling fuels or data analytics to PRC / CCP.
- ❖ We will arrest and execute speculators who bet against any nation's safety, tranquility, and / or sovereign freedom.
- ❖ We will prevent and punish formation of monopoly control of any business or commodity anywhere at all.

Joint Colors

✓ We urge the nations:

(1) Count your citizens as persons, not as consumers.

(2) Measure your strength as your citizens' morale, not as your gross domestic product.

✓ We urge the nations:

(1) As we are doing, close your civilian intelligence agencies and fold such of their activities as constitute legitimate national statecraft – you will find these to be few in number or non-existent – into your military intelligence operations.

(2) Closing your civilian intelligence agencies will clean your nation of most drug, mineral, wood, food, animal, and human trafficking. By means and methods comprehensive and severe, deploy your state-crafting assets – Diplomacy, Finance, War-Fighting – to remove the remainder.

✓ We urge the nations:

(1) Deploy and maintain neighborhood-based nuclear power generators that can be isolated and networked rapidly and easily from within each neighborhood.

(2) Remove and recycle, for their materials, wind turbines and solar thermal power systems. We approve but do not urge private and public deployment of solar panel power systems. Nuclear is humanity's cleanest, least disruptive scalable power generation capability, so far.

✓ We urge the nations:

(1) Do not fear PRC / CCP. Come to one or all of us when they abuse you or try to force you in a direction you wish not to go.

(2) Do not borrow assets or accept assurances / Memorandums Of Understanding (MOUs) from PRC / CCP. After our initial declaration voiding debt owed PRC / CCP, as now extant, we intend no further action of that kind. Borrow from them again, believe them again, and you are on your own.

(3) Utilizing our consultation and assistance, maintain full-spectrum battalion task forces (BN-TFs) flanking staging points, trans-shipment nodes, of PRC / CCP's Belt and Road Initiative (BRI).

✓ We urge the nations:

(1) Protect your territorial communications as the sovereign nation you are. We cannot and will not do that for you.

(2) You and we jointly will protect your and our extra-territorial communications so long as you intend them to be fair and reciprocal. If not jointly with us, you are on your own. If you threaten the safety or reliability of another nation's communications, you subject yourself to our scrutiny and response.

(3) Do not test our resolve once that is discernible.

✓ We urge the nations:

(1) Foster in your countrymen faith in God.

(2) Conduct your affairs in the knowledge that human beings everywhere unite in their being filled by God with God. We are

many nations and also *E Pluribus Unum* in God.

(3) Love God and do what you want. This is the first rule of statecraft and also the last. Practice it.
