

**Columbus Day, 9 October 2023**

**To: Executives and Directors of non-profit or tax-exempt NGOs or hybrid GO-NGOs having total valuation over \$2M and operating in The USofA**

You are the strategic depth of pretend US foreign and domestic policy establishments. These pretend establishments you pose as MICIMATT, an array of perversity comprising your operational depth. You pervert USGOs, such as CIA, USAID, NSC, DOJ, DOState, FBI, IRS, DHS, to operate as your tactical depth. Bogus MICIMATT and perverted agencies of state are your operational and tactical arrays, respectively. You are their strategic head.

The actual strategic depth of The USofA at the federal level is The US Congress. The actual operational depth of The USofA at the federal level is The US Executive Branch. The actual tactical depth of The USofA at the federal level is the Departments, Agencies, Commissions, and Committees of The US Executive Branch when their leaders are properly subordinate to POTUS and The US Congress rather than to you through your operational and tactical arrays.

To avoid charges of high treason – conspiring to annihilate the sovereign authority of The USofA – within six months of this date you will deliver into ownership by The US Treasury all assets of the NGO or hybrid GO-NGO you officiate and / or direct. You will by that date, in addition, deliver into ownership by The US Treasury your personal assets save \$500K in valuation of the kind you nominate.
